**Benefit Description**

**Maternity Care (cont.)**

- Maternity care benefits are not provided for prescription drugs required during pregnancy, except as recommended under the Affordable Care Act. See Section 5(f) for other prescription drug coverage.

Notes:

- You do not need to precertify your delivery; see Section 3 for other circumstances, such as *extended* stays for you or your newborn.
- You may remain in the hospital up to 48 hours after a vaginal delivery and 96 hours after a cesarean delivery. We will cover an *extended* stay if medically necessary.
- We cover routine nursery care of the newborn when performed during the covered portion of the mother's maternity stay and billed by the facility. We cover other care of a newborn who requires professional services or non-routine treatment, only if we cover the newborn under a Self Plus One or Self and Family enrollment. Surgical benefits apply to circumcision when billed by a professional provider for a male newborn.
- We pay hospitalization and surgeon services for non-maternity care the same as for illness and injury. Hospital services are listed in Section 5(c) and Surgical benefits are in Section 5(b).
- See Section 10 for our allowance for inpatient stays resulting from an emergency delivery at a hospital or other facility not contracted with your Local Plan.
- When a newborn requires definitive treatment during or after the mother's hospital stay, the newborn is considered a patient in their own right. Regular medical or surgical benefits apply rather than maternity benefits.
- See Section 5(b) for our payment levels for circumcision.
