

2026 Blue Cross and Blue Shield Service Benefit Plan - FEP Blue Focus
Section 5(f). Prescription Drug Benefits
Page 88

Must be receiving active, regular, and ongoing medical supervision and must be unable to manage the condition by modification of diet alone.

Coverage is provided as follows:

- Inborn errors of amino acid metabolism
- Food allergy with atopic dermatitis, gastrointestinal symptoms, IgE mediation, malabsorption disorder, seizure disorder, failure to thrive, or prematurity, when administered orally and is the sole source (100%) of nutrition. This one-time lifetime benefit is limited to one year following the date of the initial prescription or physician order for the medical food (e.g., Neocate, in a formula form or powders mixed to become formulas)
- Medical foods and nutritional supplements when administered by catheter or nasogastric tubes

Notes:

- A prescription and prior approval are required for medical foods provided under the pharmacy benefit. Renewals of the prior authorization are required every benefit year for inborn errors of metabolism and tube feeding.
- See Section 5(a) for our coverage of medical foods and nutritional supplements when administered by catheter or nasogastric tube under the medical benefit.

Here is how to obtain your prescription drugs and supplies:

- Make sure you have your ID card when you are ready to purchase your prescription.
- Go to any Preferred retail pharmacy, or
- Visit the website of your Preferred retail pharmacy to request your prescriptions online and delivery, if available.

Note: We state whether or not the calendar year deductible applies for each benefit listed in this section.

Benefits Description

Covered Medications and Supplies

Preferred retail pharmacies

Covered drug and supplies, such as:

- Drugs, vitamins and minerals, and nutritional supplements that by federal law of the United States require a prescription for their purchase.
